

## INSTALLATION INSTRUCTIONS: Honda Pioneer Windshield

It is recommended that bolts remain "hand tight" until all bolts <u>are</u> installed.

## **CONTENTS:**

- Windshield with hand operated wiper
- 5-13/4 " Plastic Tube Clamp with "U" nut
- 2-2" Plastic Tube Clamp with "U" nut
- Bolt Kit

STEP 1	<ul> <li>Place the provided Plastic Tube Clamps in the approximate locations indicated here.</li> <li>Pay particular attention to where the 2" clamps need to be placed.</li> </ul>
STEP 2	<ul> <li>Set the windshield in place.</li> <li>Secure the windshield with the provided ¼-20 x 1" button head bolts with a flat washer.</li> <li>Once all the bolts are in place, adjust the windshield so that the sides and top are all touching the tube and tighten all the bolts.</li> </ul>
